

Welcome

The Sports Union is situated upstairs in the Centre for Sport and Exercise. It exists purely through student participation and our aim is to keep student sport run by students and wherever possible aid the funding of sporting activities. We have 33 clubs to offer at varying levels of competition. From beginner to expert, there is a place for everyone in the Heriot-Watt University Sports Union. The Sports Clubs are run by students, for students and it is an excellent way to get involved in something brilliant at university. The Sports Union competes at a high level annually and consistently has many teams competing in the BUSA knock-outs and has regular representation, in a range of sport at a national and international level. We hope that Heriot-Watt University Sports Union continues to grow and would welcome all students on board. To find out more about individual clubs, or how to join please use the links to your left or call into the office for more details.
